SCHOOLS

2024-	Budapest University of Technology and Economics Master's degree in IT engineering
2020-2024	Budapest University of Technology and Economics Bachelor's degree in IT engineering
2016-2020	Szent István High School of Budapest Graduation

WORK EXPERIENCE

2025-	ExxonMobil Automation developer
2022-2025	Robert Bosch Junior developer in the parking visualization team

COMPETITION RESULTS

2018-2019	FKIAV IT competition	3rd place
2017-2018	KöMaL programming competition	10th place
2016-2017	KöMaL math competition	4th place

COMPUTER EXPERINCE

StorageAI	I built a cloud storage app that uses an LLM to help with file management and search. It is deployed to my homelab Kubernetes server, and I hope it will be live soon.	.Net, React, Python, Kafka, Kubernetes, Redis, Postgres
Contract Change Classifier	I helped develop a tool that uses LLM to categorize contract modifications into predefined classes, helping with contract management and analysis.	Spring-Boot, React
360° Parking Visualization	I contributed to an automotive parking system that provides drivers with a comprehensive 360-degree view of their surroundings for safer parking maneuvers.	C++, Simulink
Cyber security ticketing page	I collaborated on the development of a vulnerability management webpage designed to track security findings, coordinate testing schedules, and streamline application requests.	.Net

LANGUAGES

Hungarian	native
Czech	native
English	B2

HOBBIES

Ice dance, Piano, 3d printing, [Programming](#), League of Legends, [YouTube](#)

MOTIVATION

I have loved programming since I was a child. I started programming Lego robots (mindstorms), wrote small programs in Visual Basic, and then learned more serious programming languages. I would like to improve my programming skills, get to know company cultures, and earn money at the same time. That's why I'm seeking a programming job that allows me to work with flexible working hours alongside my studies at the university.
